

Customer Management

From the **Customer Management** menu you can do the following:

- ❑ [Create an application](#)
- ❑ [Application on existing connection](#)
- ❑ [Duplicate Application](#)
- ❑ [Modify an application](#)
- ❑ [Activate a contract](#)
- ❑ [Modify a contract](#)
- ❑ [Display a contract](#)
- ❑ [Inactivate a contract](#)
- ❑ [Reactivate a Contract](#)
- ❑ [Terminate a contract](#)
- ❑ [Requesting a Disconnection](#)
- ❑ [Requesting a Reconnection](#)
- ❑ [Complaints](#)
- ❑ [Population and Demand](#)
- ❑ [Dormant Connections](#)
- ❑ [Reports](#)
- ❑ [Exit](#)

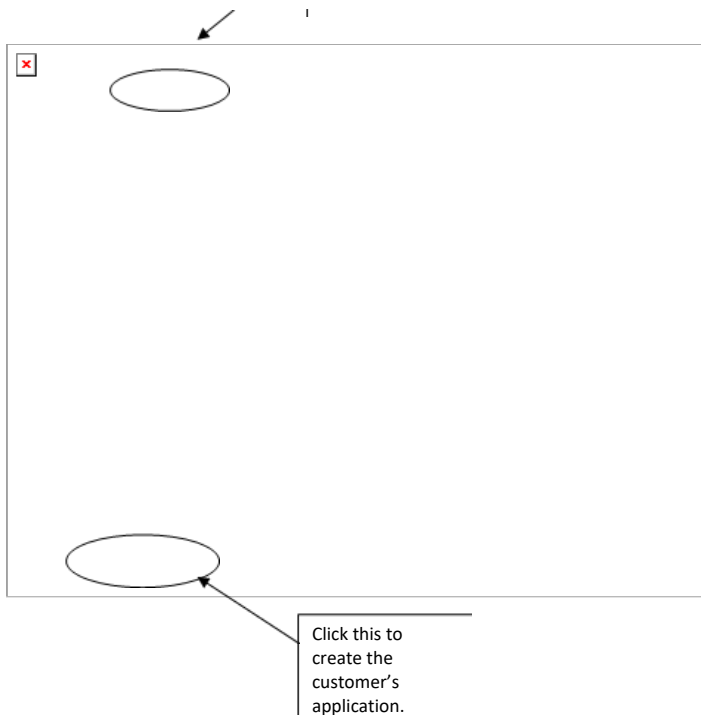

[Back to Overview](#)

Creating an Application

To create an application, Click the **Customer Management** Menu and Select **Application for New Connection** or use the corresponding shortcut (Ctrl+N).

Enter all the required data, selecting the appropriate choices in the combo boxes to determine the combination that best describes the customer.

Click **Contract Details** and fill the required fields.

[Back to Customer Management](#)

Application on an Existing Connection

To make an application on an existing connection, Click **Customer Management** Menu and Select **Change of Tenancy** to begin.

Read the instructions on the **First Page** of the wizard.

Click **Next** to proceed to the **Second Page** of the wizard.

Click the **Search Button** to get the [Search Engine](#).

Search for the appropriate customer whose connection you want to transfer to the new customer then highlight and Click **Select** (Make sure it is an inactive or dormant customer)

Click the **OK** button which is next to the **Search** button to display the details of the connection.

Click **Next >>** to get to the **third page** of the wizard.

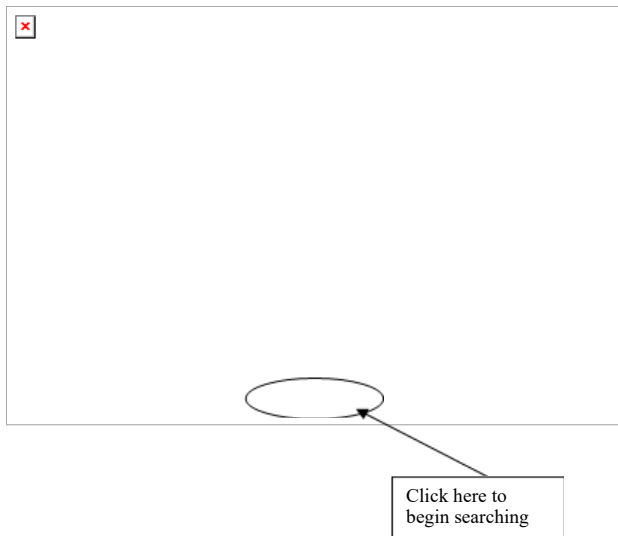

Enter all the new required data, selecting the appropriate choices in the combo boxes to determine the combination that best describes the new customer.

Click **FINISH** to transfer the connection.

[Back to Customer Management](#)

Duplicate Application

To duplicate an application, Click **Customer Management** Menu and Select **Duplicate Application**.

Click the **Search Button** to get the [Search Engine](#). Search for the appropriate customer, highlight and Click **OK**.

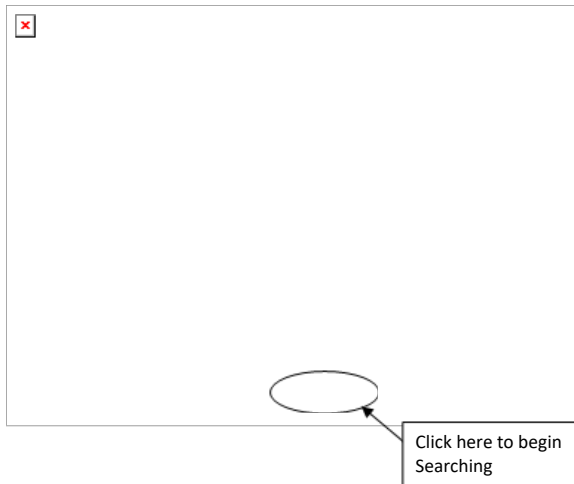

Modify the desired data; enter all the new required data, selecting the appropriate choices in the combo boxes to determine the combination that best describes the new customer.

Click **OK** to duplicate the application.

[Back to Customer Management](#)

Modify an Application

To modify an application, Click **Customer Management** Menu and Select **Modify Application**.

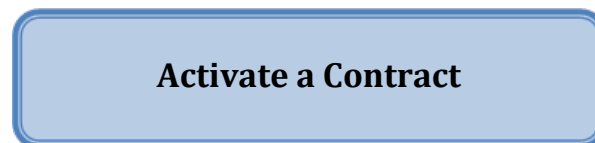

Click the **Search Button** to get the [Search Engine](#). Search for the appropriate customer, highlight and Click **OK**.

Modify the desired data.

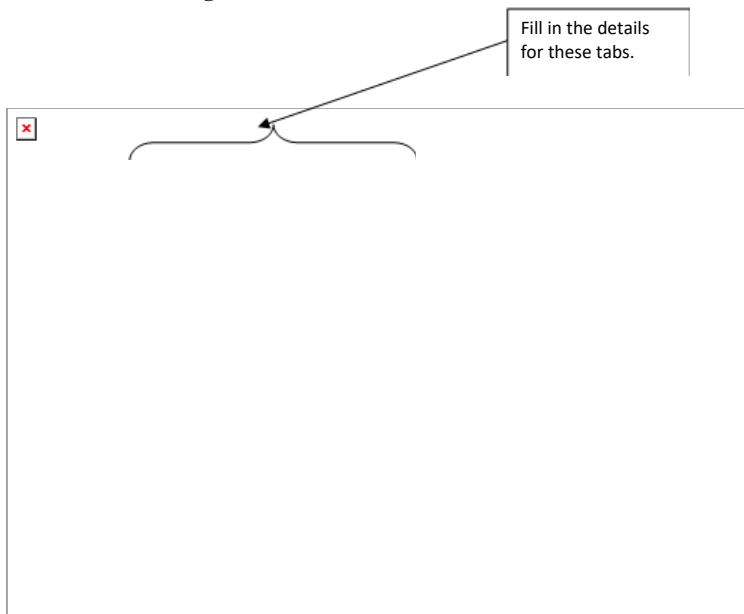

Click **OK** to modify the application.

[Back to Customer Management.](#)

To activate a contract, ensure [Deposit](#) has been paid.

Click **Customer Management** Menu and Select **Activate Contract**.

Click the **Search Button** to get the [Search Engine](#). Search for the appropriate customer, highlight and Click **OK**.

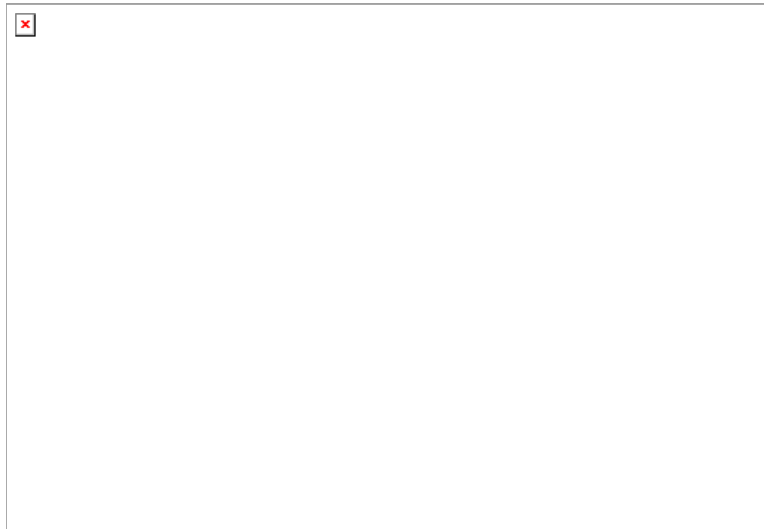

Enter all the new required data, selecting the appropriate choices in the combo boxes to determine the combination that best describes the customer to be activated.

Click **OK** to activate the contract.

[Back to Customer Management](#)

Modify a Contract

To modify a contract, Click **Customer Management** Menu and Select **Modify Contract**.

Click the **Search Button** to get the [Search Engine](#). Search for the appropriate customer, highlight and Click **OK**.

Modify the desired data.

Click **Apply** to modify the contract or **Cancel Changes** if you decide to remove any changes made to the contract.

[Back to Customer Management](#)

Display a Contract

To display a contract, Click **Customer Management** Menu and Select **Display Contract** or the shortcut key (Ctrl+D).

Click the **Search Button** to get the [Search Engine](#). Search for the appropriate customer, highlight and Click OK

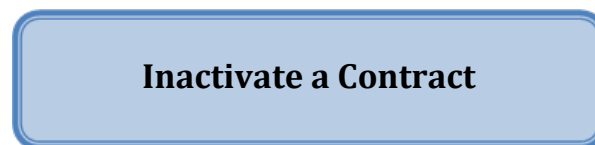

Using the Tabs you can view all the contract details.

You can print the contract together with all the details by clicking the **PRINT** button.

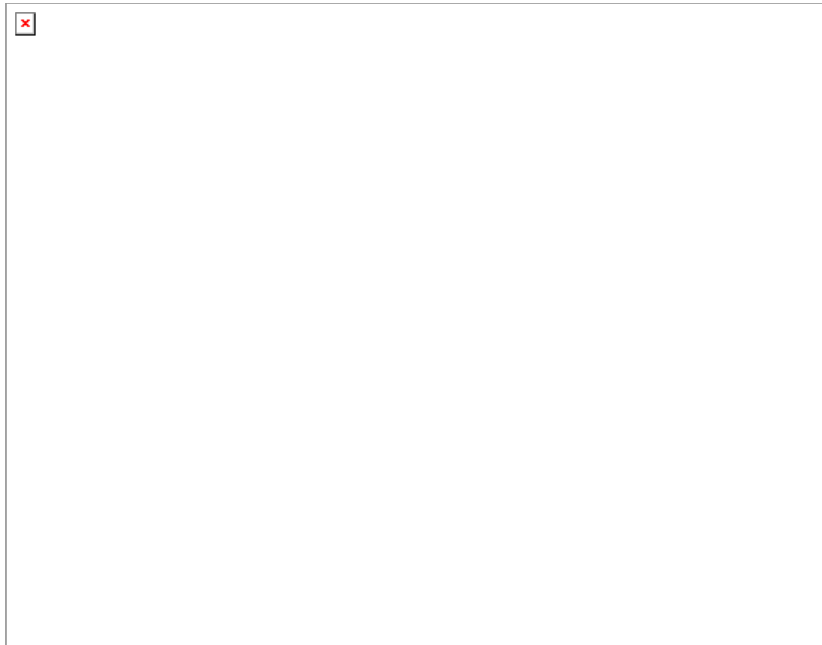

The **PRINT STATEMENT** button gives you the statement of the user in question.

Click **CLOSE** to exit the display.

[Back to Customer Management](#)

To inactivate a contract, Click **Customer Management** Menu and Select **Inactivate Contract**.

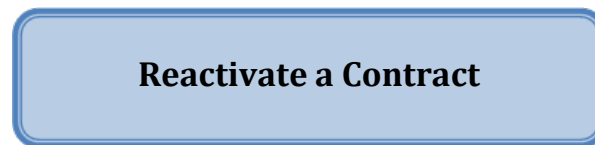

Click the **Search Button** to get the [Search Engine](#). Search for the appropriate customer, highlight and Click **OK**.

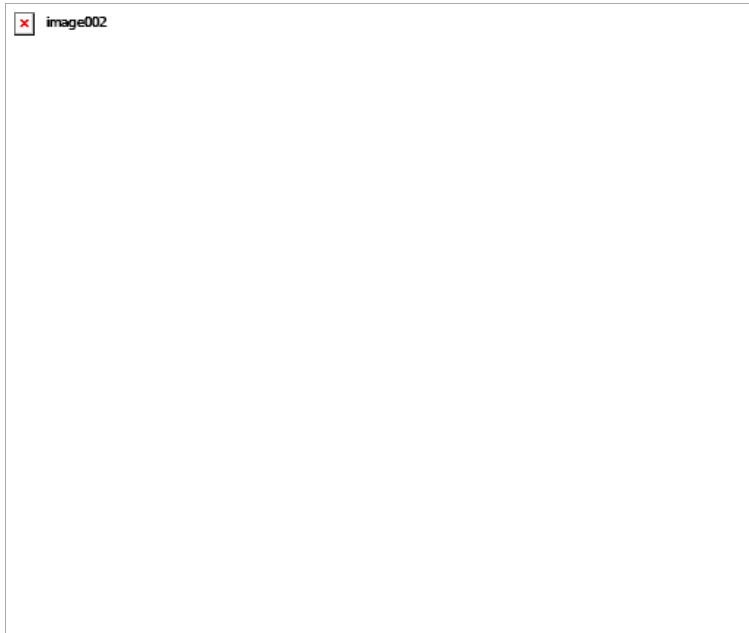

Enter the required data in all the tabs.

Click **Inactivate** to complete the process.

[Back to Customer Management](#)

To Re-activate a contract, Click **Customer Management** Menu and Select **Reactivate Contract**.

Select the **Billing Group/ Zone**

Select the date range that the contract was in-activated.

Click the **Display** Button which will list all the contracts that had been in-activated in that period of time.

Click on the Customer's Name and click the **Re-activate** button on the form.

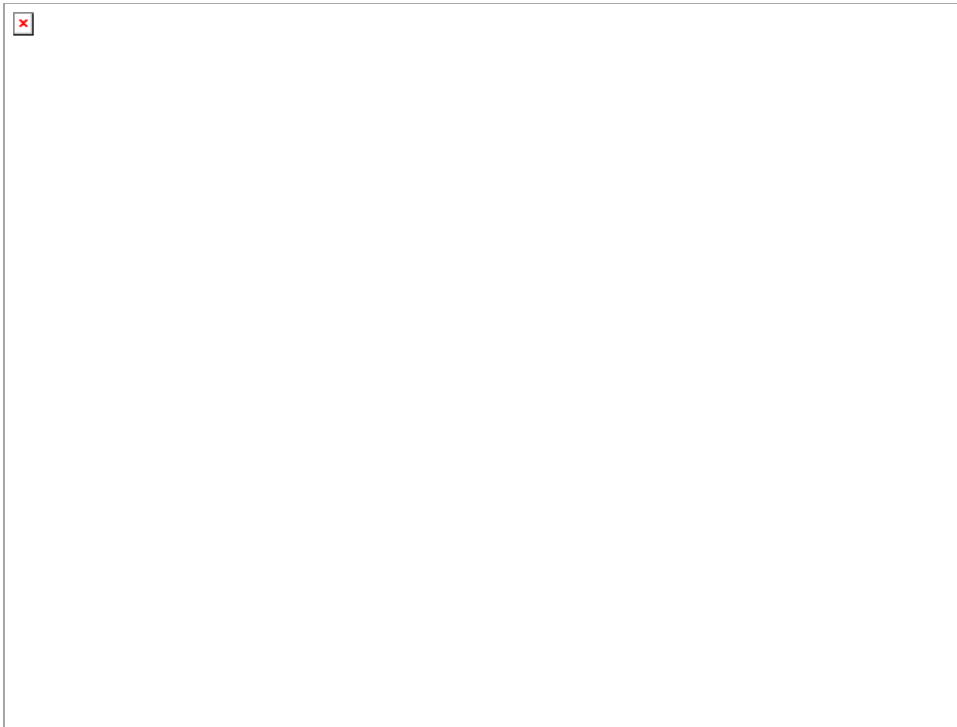

To cancel the process, click the **Close** button.

[Back to Customer Management](#)

Terminate a Contract

To terminate a contract, ensure that the contract is inactive. The contract can be terminated if the customer has no debts (i.e. All bills have been cleared) and the associated Period Billing Group is closed.

Click **Customer Management** Menu and Select **Terminate Contract**.

Click the **Search Button** to get the [Search Engine](#). Search for the appropriate customer, highlight and Click OK

Enter all the new required data, selecting the appropriate choices in the combo boxes to determine the combination that best describes the customer to be terminated.

Click **OK** to terminate the contract.

[Back to Customer Management](#)

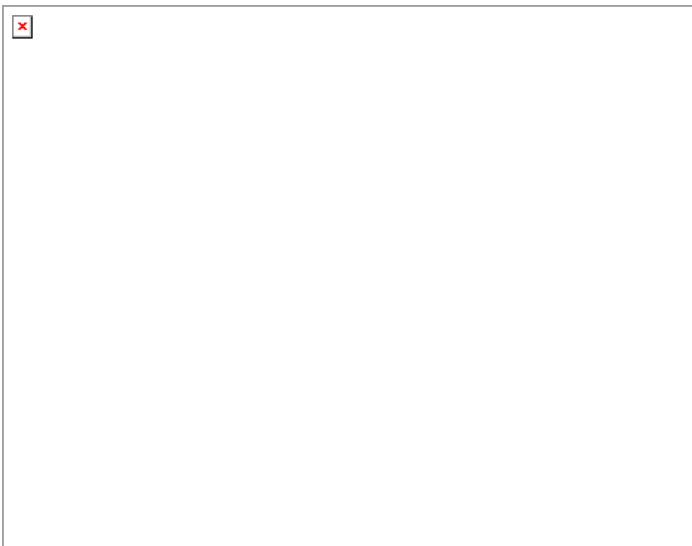

Requesting a Disconnection

In disconnecting a contract, a customer has to present a disconnecting request.

Click **Customer Management** Menu and Select **Disconnection Request**.

Click the **Search Button** to get the [Search Engine](#). Search for the appropriate customer, highlight and Click Select.

Enter all the new required data, selecting the appropriate choices in the combo boxes to determine the combination that best describes the customer to be disconnected/ In-activated.

Click **Disconnect** button to disconnect the connection.

To cancel the process, click the **Close** button.

[Back to Customer Management](#)

Requesting a Reconnection

In reconnecting a contract, a customer has to present a reconnecting request.

Click **Customer Management** Menu and Select **Reconnection Request**.

Select the appropriate Billing Group / zone

Select the date range in which the customer was disconnected.

Click the **Display** button to view all the disconnected customers' details.

Click the **Reconnect** button to reconnect the customer.

By Checking on the Checkbox at the extreme left of the customer's account, a form will appear requiring you to fill in the necessary fields.

Click the **Update** button to submit the comments and the necessary information.

Click **Reconnect** button to fix the connection.

To cancel the process, click the **Close** button.

[Back to Customer Management](#)

Complaints

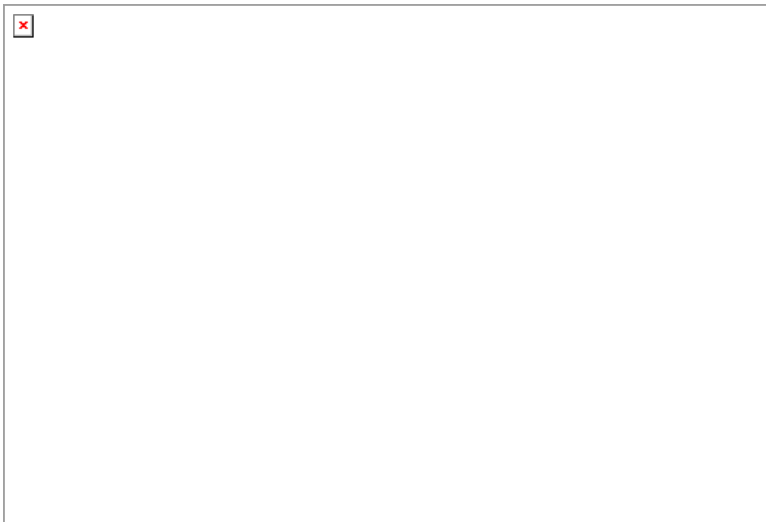

In the Complaints sub-menu you can do the following:

- [Manage Complaints](#)
- [Register Complaint](#)
- [Modify Complaint](#)
- [Delete Complaint](#)
- [Register Action](#)
- [Customer's Complaints](#)
- [Query Complaints](#)
- [Reports](#)

-

Manage complaints:

Click **Customer Management** Menu, Point the **Complaints** item on the menu and click the **Manage Complaints** item.

This form will help you to manage all the complaints that have not been solved.

You can either specify the range of dates the complaints were created or give the number of days.

When this is done, select the **Type of Complaint** and click **Ok**.

All the complaints within the criteria chosen will be displayed in the **Unresolved Complaints** Section.

[TOP](#)

Register Complaints:

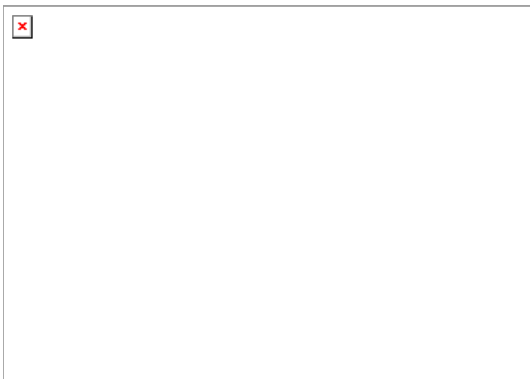

Select the date range in which the customer was disconnected.

Click the **Display** button to view all the disconnected customers' details.

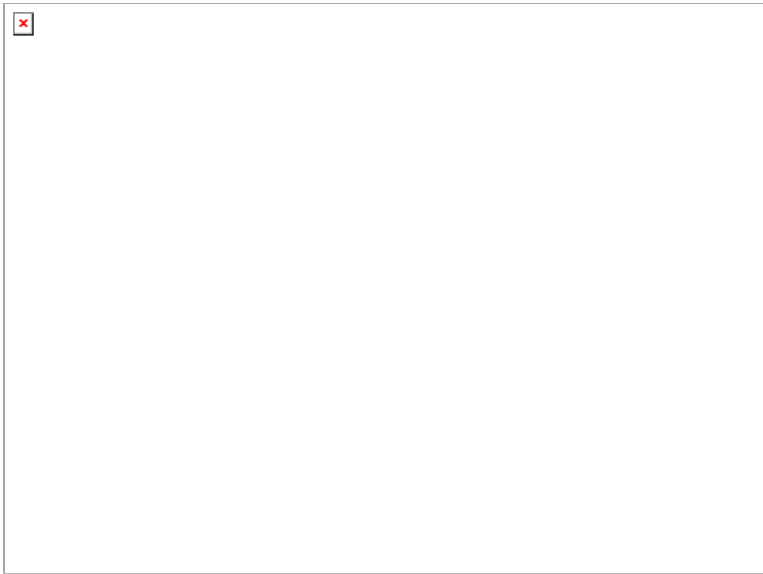

Click the **Reconnect** button to reconnect the customer.

By Checking on the Checkbox at the extreme left of the customer's account, a form will appear requiring you to fill in the necessary fields.

[TOP](#)

Modify Complaints:

Enter the **Reference Number** and click **Ok** button or click the search button and select the client who had made a complaint initially.

Select the **complaint category**.

Fill in the necessary information about the complaint (**Type of complaint, Priority, Department to take action and the description of the complaint**)

Click the Modify button.

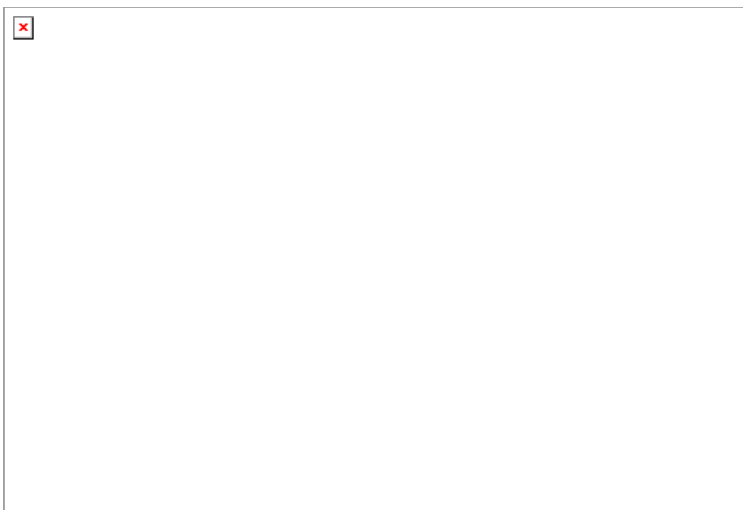

Click the **Delete last action** button to erase any initial complaints made.

Click the **close** button to exit the form.

[TOP](#)

-

Delete Complaints:

Click the **Load** button on the form to display the comments that had already been made on the **complaints that can be deleted** area.

Select the complaint reference number that you wish to delete.

Click the **Delete** Button on the form

Click **close** to exit the form.

[TOP](#)

Register Action:

Enter the **Reference number** of the complain and click the **OK** button or use the **search** button to obtain the complaint required.

The customer profile will be filled when a reference number is set.

Fill in the necessary action that will be taken or has been taken to solve the complaint brought forward by the customer. Select the employee to handle it and type the description of the action taken.

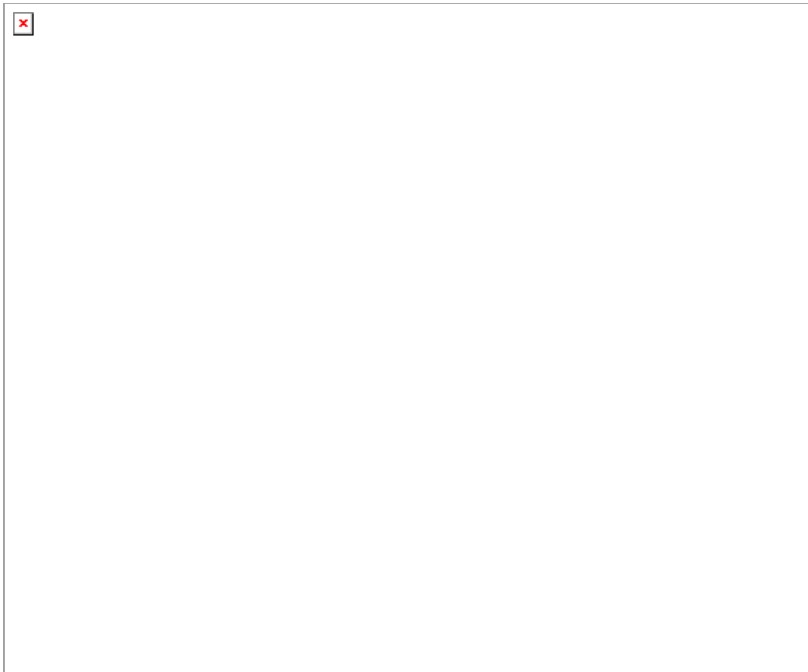

Check the option "**Complaint Resolved**" if the complaint was resolved. Click the Register Button to forward the complain to the specified employee.

Click the **close** button to exit the form or abort the process.

[TOP](#)

-

Customer's Complaints:

To view all the complaints a customer has ever recorded:

Enter the **account number** and click **ok** or click the **search** button and select the required customer

The **customer profile** will be shown and the **complaints history** will be displayed too.

Click **close** to exit the form.

[TOP](#)

-

Query Complaint:

To search for a complaint in the database of the system:

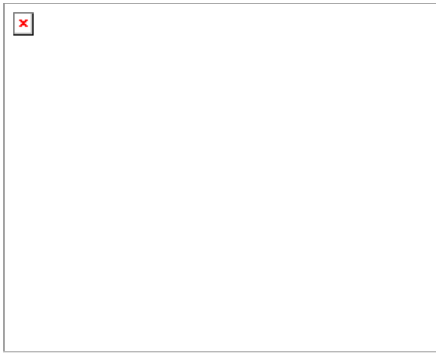

Click the search button and obtain the reference number of the complain using the various criteria to search.

Click the ok button to view the complaint.

[TOP](#)

Reports

No. of Complaints:

To view the number of complaints:

Select the date that the complaints were forwarded to the company (The range of dates)

Select the billing group that the complaints emanated from.

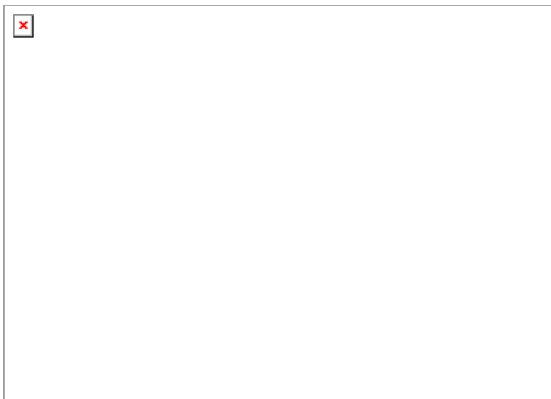

Select the type of complaints and the complaints category.

To view the number of complaints received in a day-to-day basis, click the **Daily** button.

To view the number of complaints received monthly, click the **Monthly** Button.

Click **Close** Button to exit the form.

Un-resolved Complaints:

To view unresolved complaints:

Select the **range of days** that the complaint was/were received.

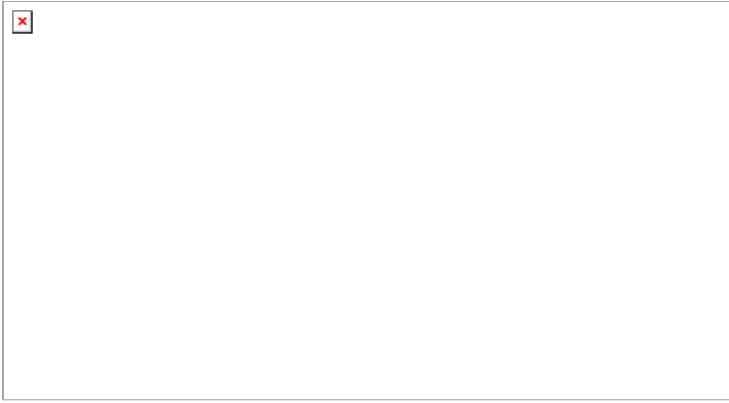

Select the **Department assigned** to deal with the complaint, the **position** that was assigned, **type of complaint** and the **complaint category**.

Click the **Print** button to preview the report before printing.

Click **print by zone** button to view the report arranged in a "by zone" criteria

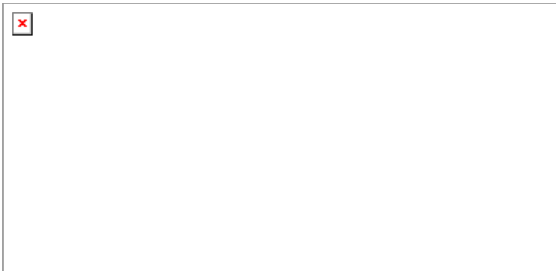

Click the **cancel** button to exit the form.

All Complaints:

This gives a report on all the complaints made under specified criteria.

Contract Detailed Information:

This report presents the user with information about a customer and his/her contract with the company.

Select the **customer account** number

Select the **start date** and the **end date** that the report will cover.

Select the **report output**

Click the **Print** button to preview the contents of the report before printing.

Click the **Close** button to exit the form.

[Back to Revenue](#)

Capturing Auxiliary Payments

Use **Capture Auxiliary Payments** to receive payments that are not necessarily in the bill.

To capture the payments (ctrl+M):

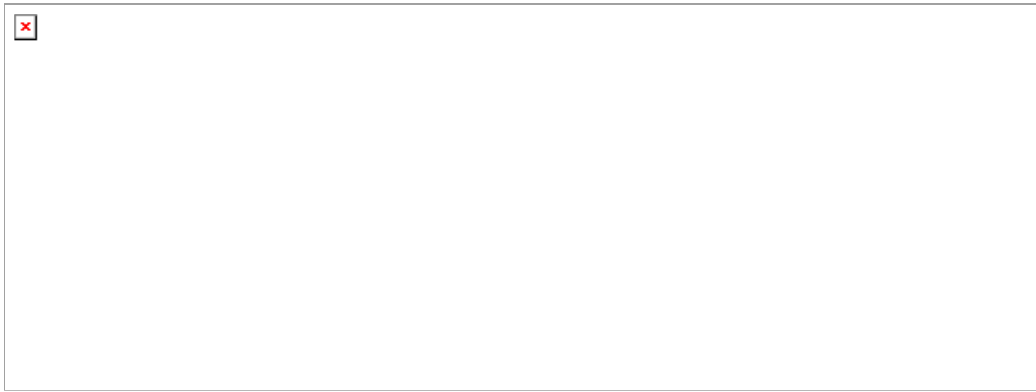

- ✓ Select the kind of payment to make.
- ✓ Use the **search** button to access the search engine, obtain the customer for whom to capture the payment.
- ✓ Click **OK** Button.
- ✓ Enter all the required information
- ✓ Click **Update** Button.
- ✓ Click **Close** Button to exit the form.

[Back to Revenue](#)

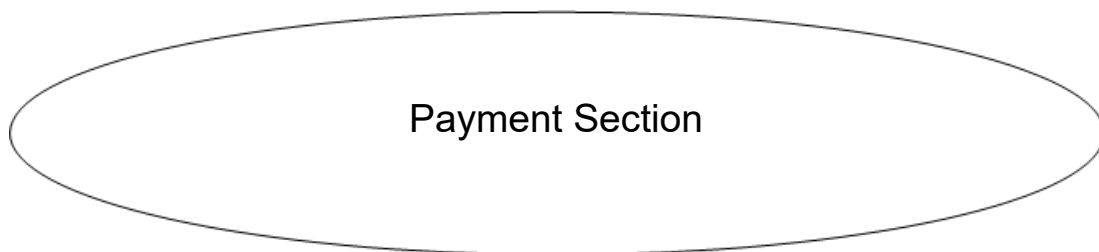

Payments in Bulk

Use **Bulk/Batch Payments** to receive payments for many customers.

To capture the payments in this mode:

- Enter the default payment details (these include the cashier's name Mode of payment and Cash account)
- Click the Payment Details tab to get the following screen.

- ✓ Use the [search](#) button to load the client/billing period with outstanding debts.
- ✓ Click **Add** button to add the record to the payment section on the form.
- ✓ You can search for more clients and add them to the payment section, so as to carry out a batch update.
- ✓ Click the **Update** button to update the records.
- ✓ Click the **Close** Button to exit the process or the form.

[Back to Revenue](#)

Cancel Payment

Use **Cancel Payments** to undo payments already made.

To cancel the payments:

- ✓ Fill in the requirements in the Payment Details section: Type of Payment, Mode of Payment and Cash Account.
- ✓ Use the **search** button to access the **Payment Search**, obtain the customer for whom to cancel the payment made.
- ✓ Enter the required information on the subsequent parts of the form.
- ✓ Click the **Cancel Payment** Button to remove the payment made for the specific customer.
- ✓ Click the **Close** Button to exit the form or the process.

[Back to Revenue](#)

Refunds

Use **Refunds** to refund a customer a payment.

To refund a payment:

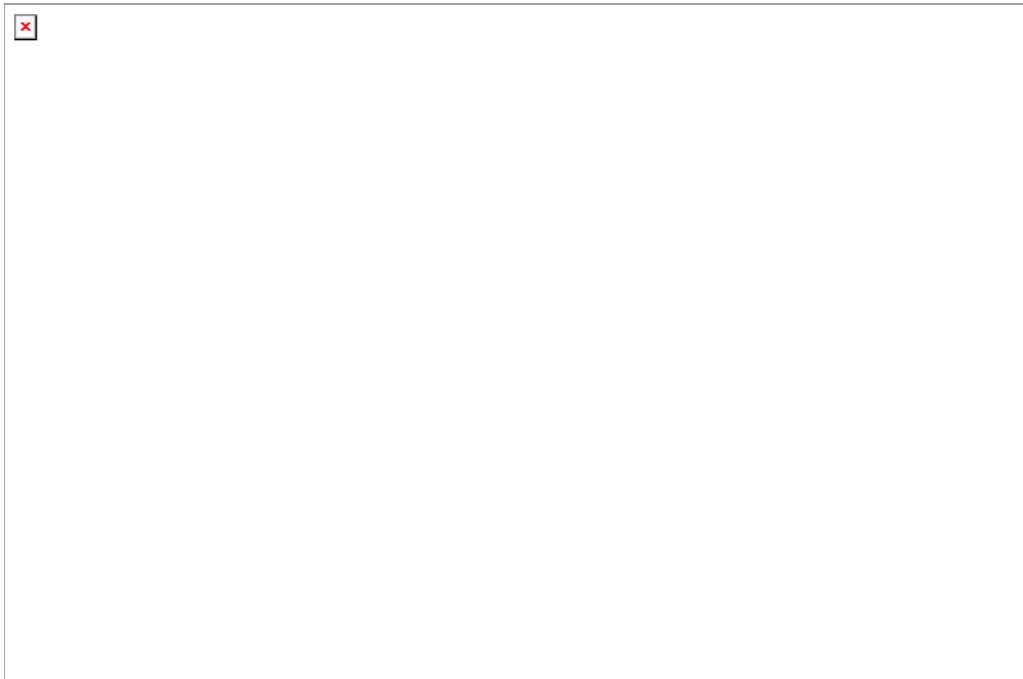

- ✓ Select the payment to refund
- ✓ Use the **search** button to access the search engine, obtain the customer for whom to refund a payment.
- ✓ Click **OK** Button.
- ✓ Enter all required information.
- ✓ Click **Update** Button.
- ✓ Click **Close** Button to close the form.

[Back to Revenue](#)

Reports

Display Payments

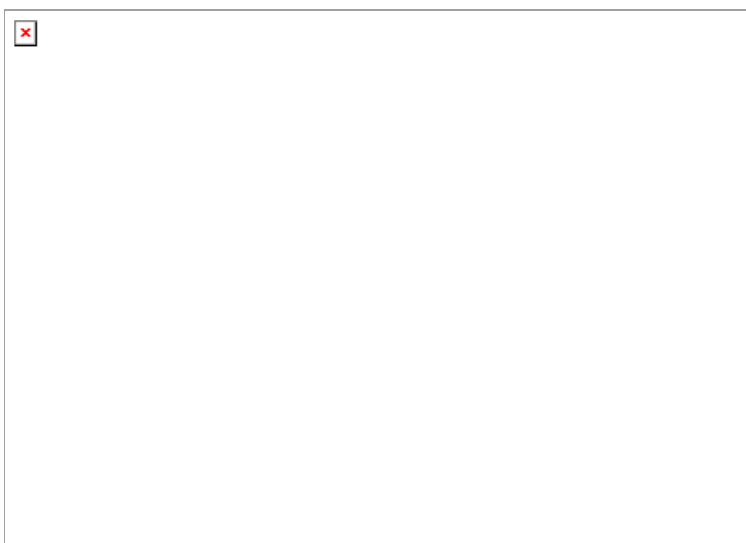

To view the payments made:

- ✓ Use the **search** button to access the **Customer Search**, obtain the customer for whom to view the payments made.
- ✓ Click the **Print** Button to view a more detailed record of the client's payment(s).
- ✓ Click the **Close** Button to exit the form or the process.

Print Payments

To Print Payments made:

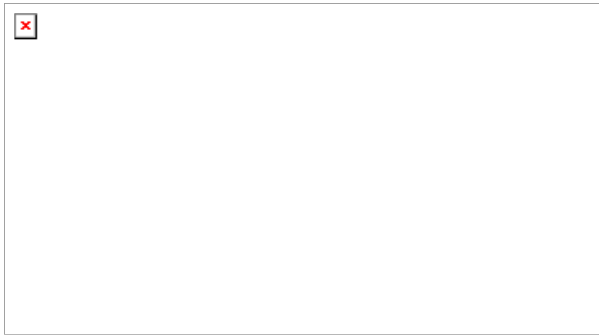

- ✓ Select on the **Report Range** section the start date and the End date
- ✓ Select the billing group from which you would like to print the client from.
- ✓ One has the option to print the **Entire Billing group** or to print a **single customer**.

- ✓ If you choose to print a **single customer**, then scroll down and look for the specific customer in the list and Click **Print** Icon.
- ✓ If you select the **Entire billing group** and click **print** icon then it will print all the customers in that Billing group.
- ✓ Click the **Close** button to exit the form.

Summary Daily Payments

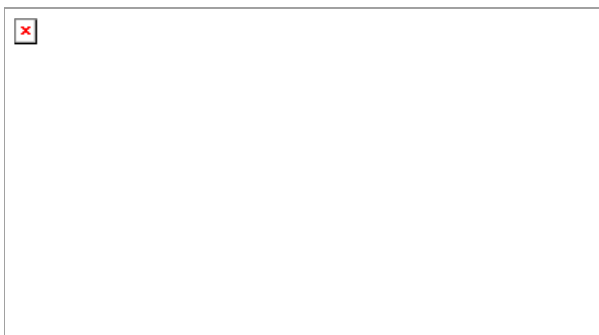

To check for daily payments made for a certain period of time:

- ✓ Select the **Mewass Office** and the **Billing Group** that you want to view the daily payments made.
- ✓ Select the period in which you would like to see the payments in **Report Range** section.
- ✓ Select the option to use between previewing and printing the report at the **Report Output**.
- ✓ Click the **Print** button to print the summary report or **Close** button to exit the form/ cancel the operation.

Detailed Daily Payments

This report presents more information about payments made in a daily basis for a certain period of time.

- ✓ Select the **Mewass Office** and the **Billing Group** that you want to view the daily payments made.
- ✓ Select the period in which you would like to see the payments in **Report Range** section.
- ✓ Select the option to use between previewing and printing the report at the **Report Output**.
- ✓ Click the **Print** button to print the summary report or **Close** button to exit the form/ cancel the operation.

Cashier Daily Payments

This gives a report on all the payments a cashier received for a certain period of time.

- ✓ Select the required cashier to view the number and details of the payments received by them.
- ✓ In the **Report Range** section select the range of dates that you would like to view the daily received payments.
- ✓ Select the option to use between previewing and printing the report at the **Report Output**.
- ✓ Click the **Print** Button to print the daily payments report or **Close** button to exit the form/ cancel the operation.

[Back to Revenue](#)

Billing

From the **Billing menu** you can perform the following:

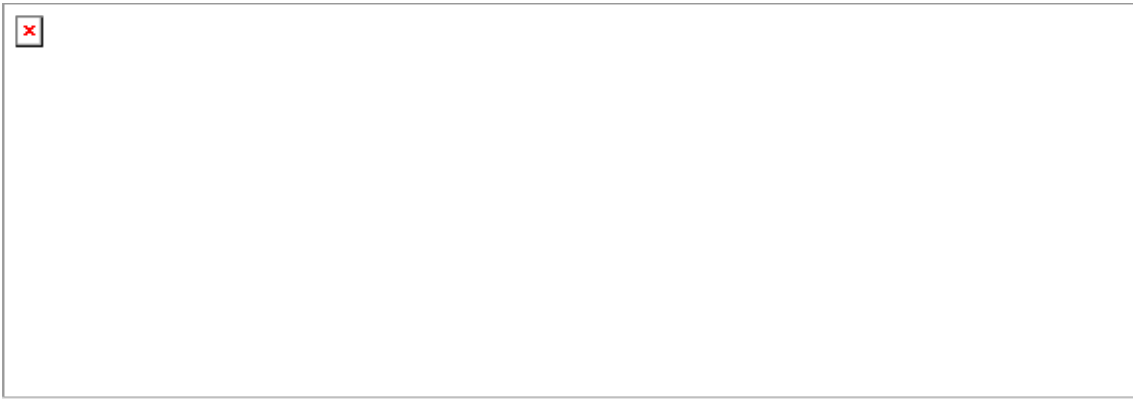

- ❑ [Process Bill Simulation](#)
- ❑ [Process Bills](#)
- ❑ [Create Manual Bills](#)
- ❑ [Print Bills](#)
- ❑ [Display Bills](#)
- ❑ [Adjust Bills](#)
- ❑ [Cancel Bills](#)
- ❑ [Distribute Bills](#)
- ❑ [Billing Summary](#)
- ❑ [Draft Bill Processing](#)

[Back to Overview](#)

Process Bill Simulation

Use **Process Bills Simulation** to simulate the bills.

To Process Bills Simulation:

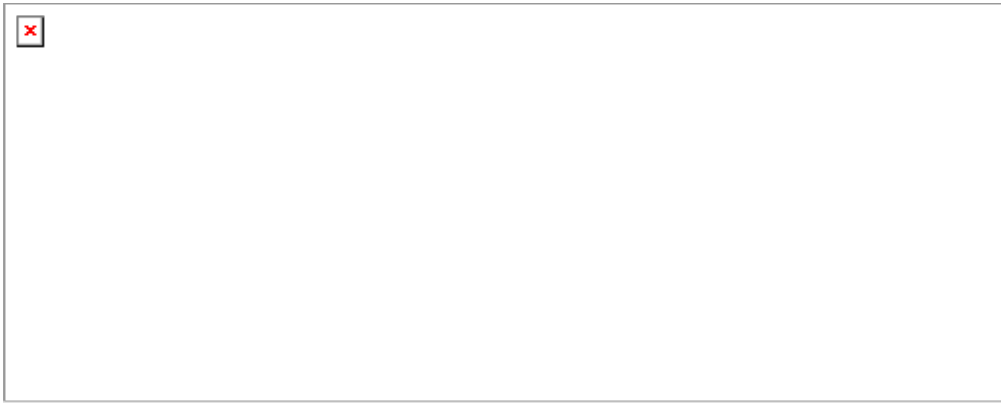

- ✓ Select the Billing Group
- ✓ Click **Process** Button.
- ✓ Adjust necessary details to make the simulation successful.
- ✓ Click **Close** Button to close the form.

[Back to Billing](#)

Process Bills

Use **Process Bills** to process the bills.

To Process Bills:

A screenshot of a web form window. In the top-left corner, there is a small square button with a red 'X' icon, typically used for closing the window. The rest of the window is empty.

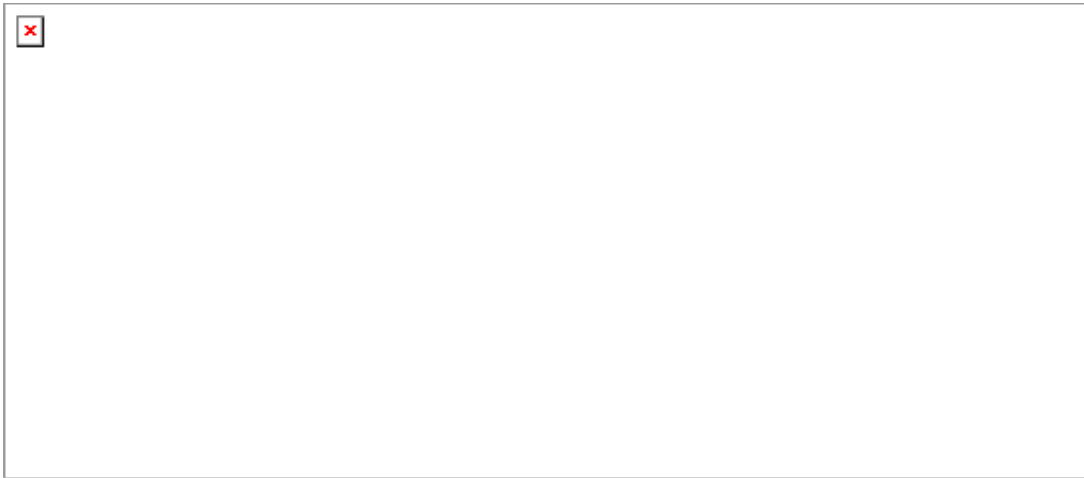

- ✓ Select the Billing Group
- ✓ Select the **Expected bills Distribution Date**.
- ✓ Click **Process** Button.
- ✓ Click **Close** Button to close the form.

[Back to Billing](#)

Create Manual/Credit Bill

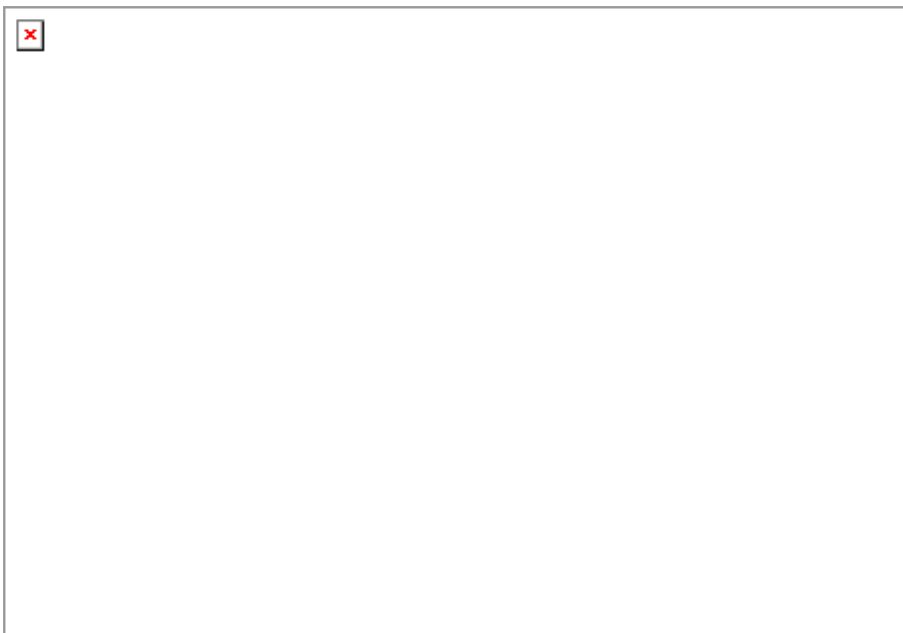

Use **Create Manual Bill** to create manual or credit bills.

To Create Manual/credit Bill:

- Use the search button, to access the search engine and select the appropriate user.

- ❑ [Inactivate a contract](#)
- ❑ [Reactivate a Contract](#)
- ❑ [Terminate a contract](#)
- ❑ [Requesting a Disconnection](#)
- ❑ [Requesting a Reconnection](#)
- ❑ [Complaints](#)
- ❑ [Population and Demand](#)
- ❑ [Dormant Connections](#)
- ❑ [Reports](#)
- ❑ [Exit](#)

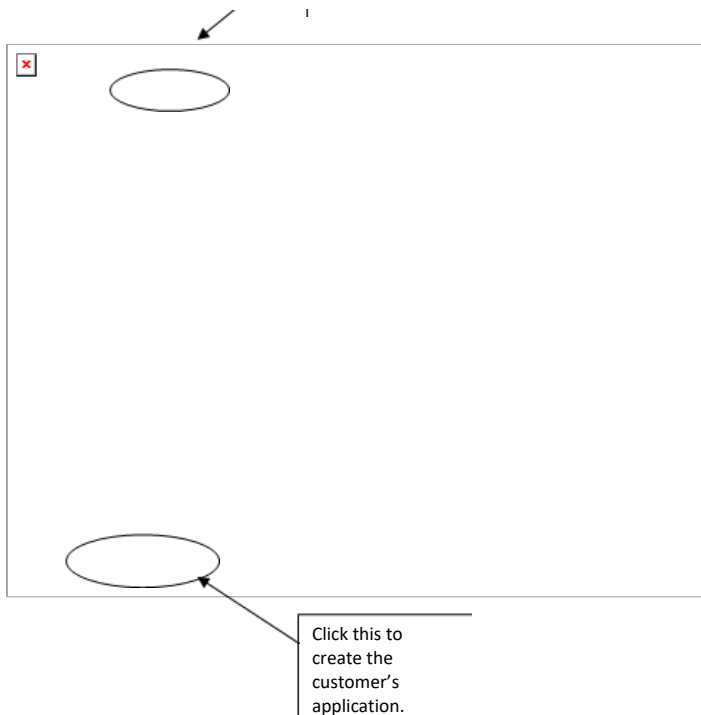

[Back to Overview](#)

Creating an Application

To create an application, Click the **Customer Management** Menu and Select **Application for New Connection** or use the corresponding shortcut (Ctrl+N).

Enter all the required data, selecting the appropriate choices in the combo boxes to determine the combination that best describes the customer.

Click **Contract Details** and fill the required fields.

[Back to Customer Management](#)

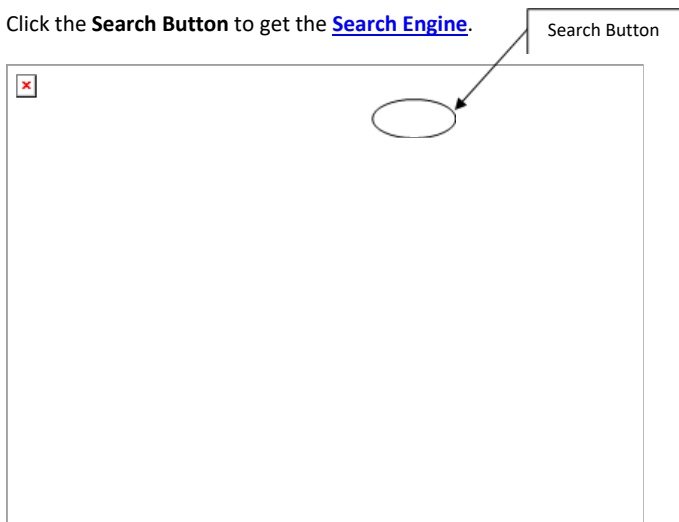

Application on an Existing Connection

To make an application on an existing connection, Click **Customer Management** Menu and Select **Change of Tenancy** to begin.

Read the instructions on the **First Page** of the wizard.

Click **Next** to proceed to the **Second Page** of the wizard.

Click the **Search Button** to get the [Search Engine](#).

Search for the appropriate customer whose connection you want to transfer to the new customer then highlight and Click **Select** (Make sure it is an inactive or dormant customer)

Click the **OK** button which is next to the **Search** button to display the details of the connection.

Click **Next >>** to get to the **third page** of the wizard.

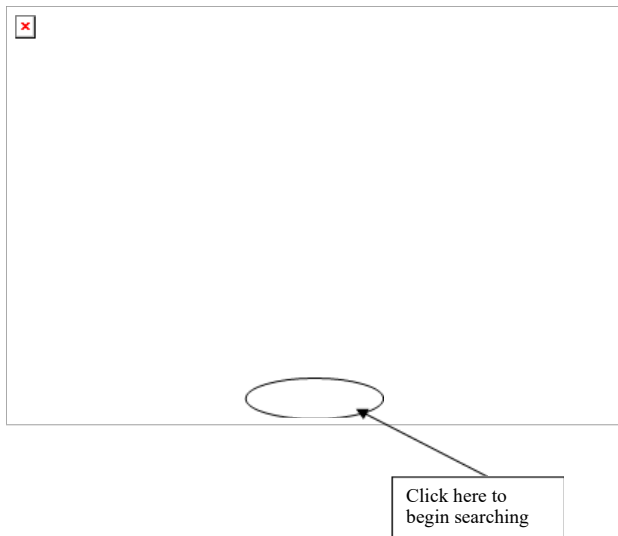

Enter all the new required data, selecting the appropriate choices in the combo boxes to determine the combination that best describes the new customer.

Click **FINISH** to transfer the connection.

[Back to Customer Management](#)

Duplicate Application

To duplicate an application, Click **Customer Management** Menu and Select **Duplicate Application**.

Click the **Search Button** to get the [Search Engine](#). Search for the appropriate customer, highlight and Click **OK**.

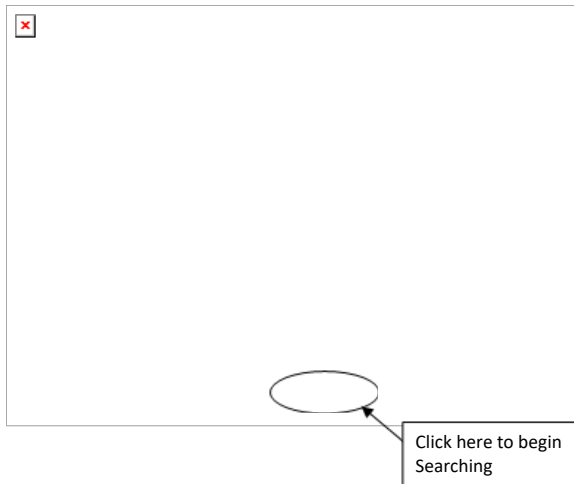

Modify the desired data; enter all the new required data, selecting the appropriate choices in the combo boxes to determine the combination that best describes the new customer.

Click **OK** to duplicate the application.

[Back to Customer Management](#)

Modify an Application

To modify an application, Click **Customer Management** Menu and Select **Modify Application**.

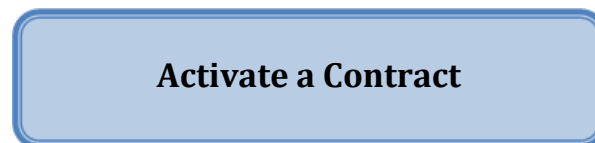

Click the **Search Button** to get the [Search Engine](#). Search for the appropriate customer, highlight and Click **OK**.

Modify the desired data.

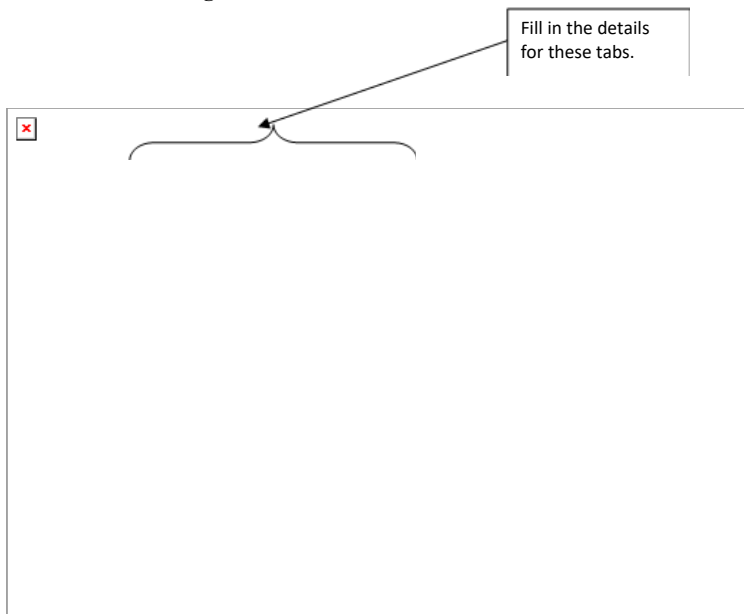

Click **OK** to modify the application.

[Back to Customer Management.](#)

To activate a contract, ensure [Deposit](#) has been paid.

Click **Customer Management** Menu and Select **Activate Contract**.

Click the **Search Button** to get the [Search Engine](#). Search for the appropriate customer, highlight and Click **OK**.

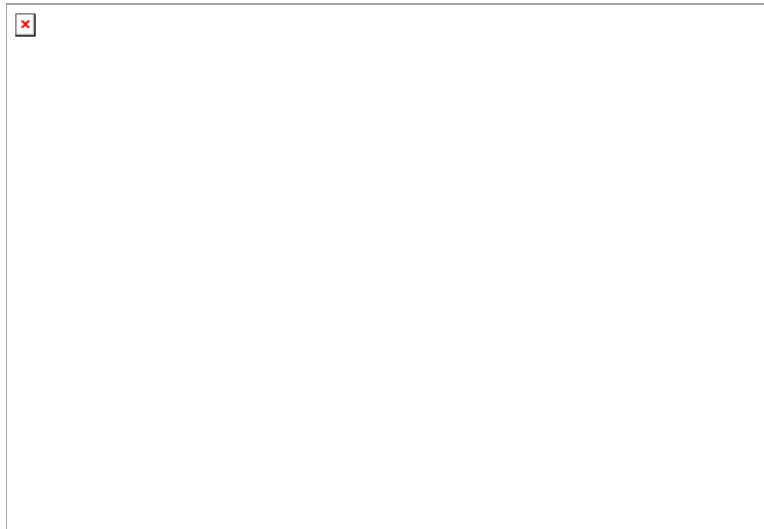

Enter all the new required data, selecting the appropriate choices in the combo boxes to determine the combination that best describes the customer to be activated.

Click **OK** to activate the contract.

[Back to Customer Management](#)

Modify a Contract

To modify a contract, Click **Customer Management** Menu and Select **Modify Contract**.

Click the **Search Button** to get the [Search Engine](#). Search for the appropriate customer, highlight and Click **OK**.

Modify the desired data.

Click **Apply** to modify the contract or **Cancel Changes** if you decide to remove any changes made to the contract.

[Back to Customer Management](#)

Display a Contract

To display a contract, Click **Customer Management** Menu and Select **Display Contract** or the shortcut key (Ctrl+D).

Click the **Search Button** to get the [Search Engine](#). Search for the appropriate customer, highlight and Click OK

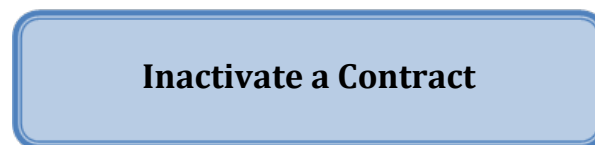

Using the Tabs you can view all the contract details.

You can print the contract together with all the details by clicking the **PRINT** button.

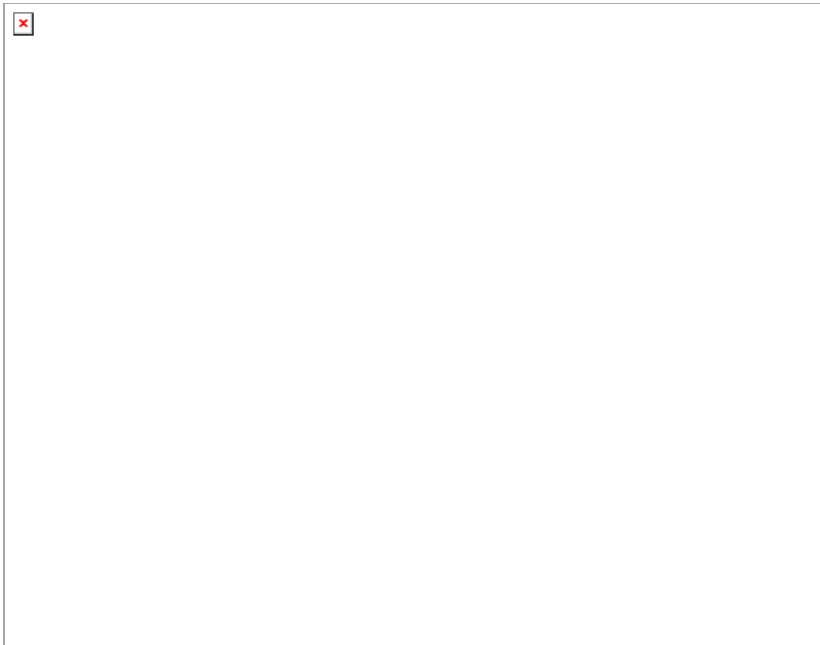

The **PRINT STATEMENT** button gives you the statement of the user in question.

Click **CLOSE** to exit the display.

[Back to Customer Management](#)

To inactivate a contract, Click **Customer Management** Menu and Select **Inactivate Contract**.

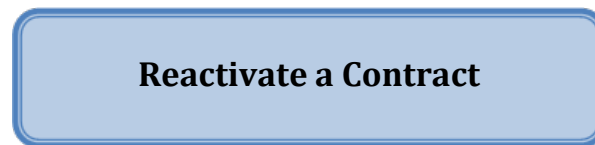

Click the **Search Button** to get the [Search Engine](#). Search for the appropriate customer, highlight and Click **OK**.

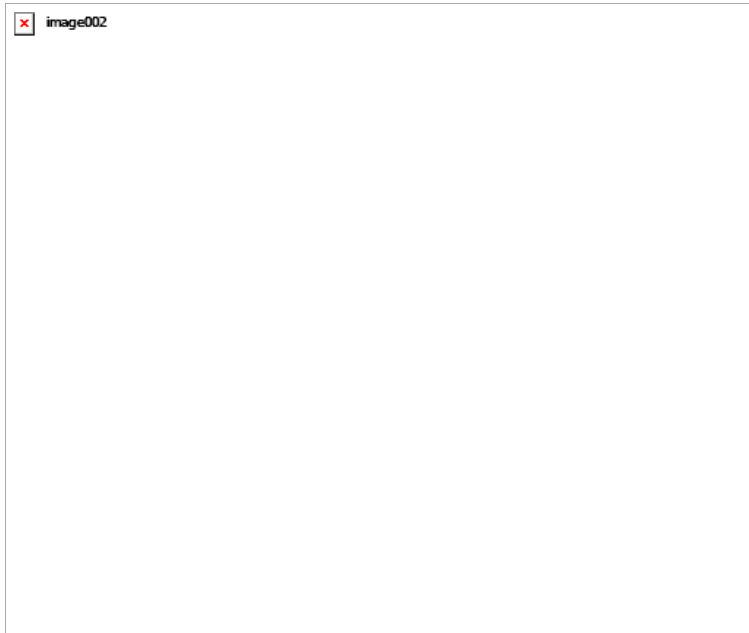

Enter the required data in all the tabs.

Click **Inactivate** to complete the process.

[Back to Customer Management](#)

To Re-activate a contract, Click **Customer Management** Menu and Select **Reactivate Contract**.

Select the **Billing Group/ Zone**

Select the date range that the contract was in-activated.

Click the **Display** Button which will list all the contracts that had been in-activated in that period of time.

Click on the Customer's Name and click the **Re-activate** button on the form.

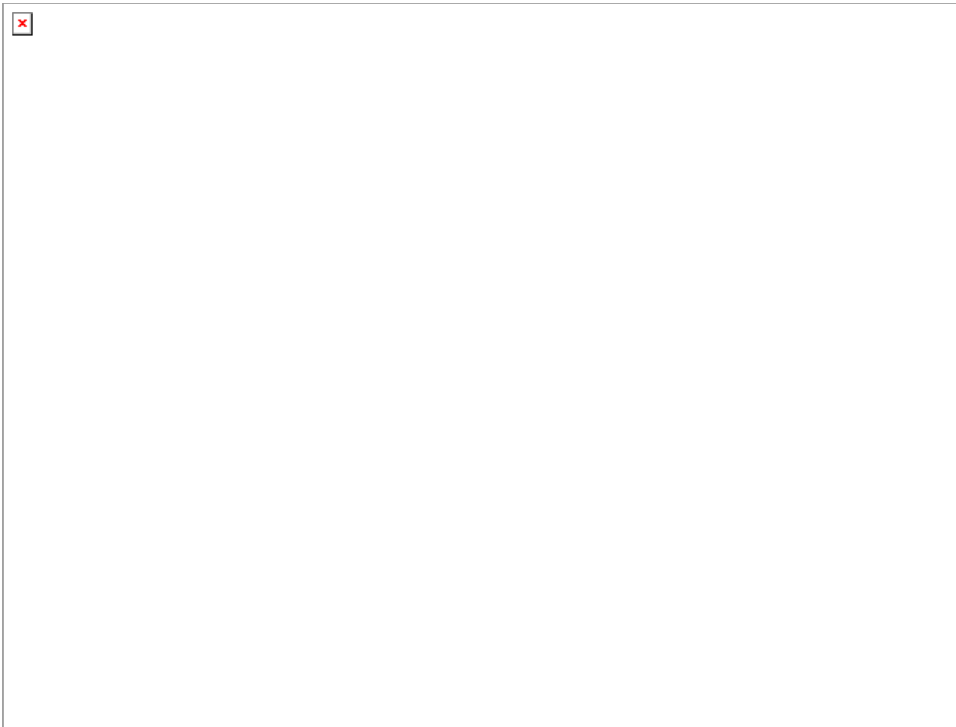

To cancel the process, click the **Close** button.

[Back to Customer Management](#)

Terminate a Contract

To terminate a contract, ensure that the contract is inactive. The contract can be terminated if the customer has no debts (i.e. All bills have been cleared) and the associated Period Billing Group is closed.

Click **Customer Management** Menu and Select **Terminate Contract**.

Click the **Search Button** to get the [Search Engine](#). Search for the appropriate customer, highlight and Click OK

Enter all the new required data, selecting the appropriate choices in the combo boxes to determine the combination that best describes the customer to be terminated.

Click **OK** to terminate the contract.

[Back to Customer Management](#)

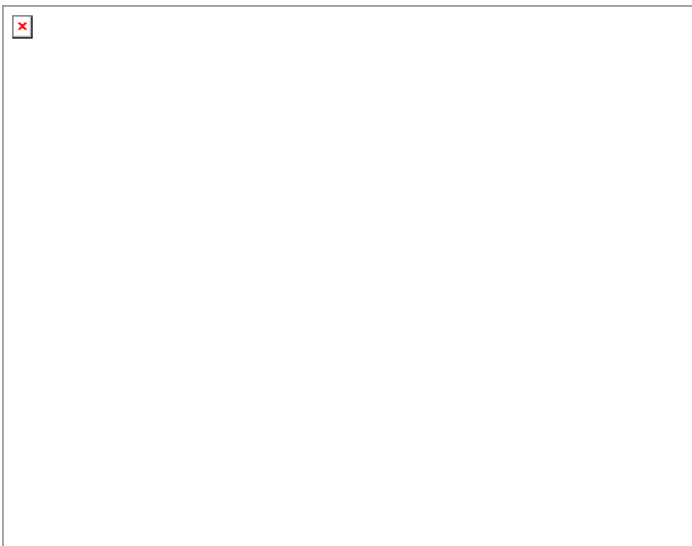

Requesting a Disconnection

In disconnecting a contract, a customer has to present a disconnecting request.

Click **Customer Management** Menu and Select **Disconnection Request**.

Click the **Search Button** to get the [Search Engine](#). Search for the appropriate customer, highlight and Click Select.

Enter all the new required data, selecting the appropriate choices in the combo boxes to determine the combination that best describes the customer to be disconnected/ In-activated.

Click **Disconnect** button to disconnect the connection.

To cancel the process, click the **Close** button.

[Back to Customer Management](#)

Requesting a Reconnection

In reconnecting a contract, a customer has to present a reconnecting request.

Click **Customer Management** Menu and Select **Reconnection Request**.

Select the appropriate Billing Group / zone

Select the date range in which the customer was disconnected.

Click the **Display** button to view all the disconnected customers' details.

Click the **Reconnect** button to reconnect the customer.

By Checking on the Checkbox at the extreme left of the customer's account, a form will appear requiring you to fill in the necessary fields.

Click the **Update** button to submit the comments and the necessary information.

Click **Reconnect** button to fix the connection.

To cancel the process, click the **Close** button.

[Back to Customer Management](#)

Complaints

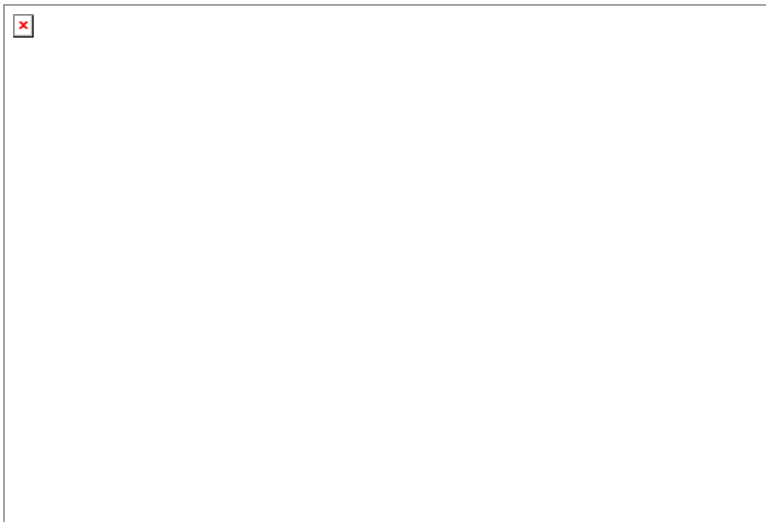

In the Complaints sub-menu you can do the following:

- [Manage Complaints](#)
- [Register Complaint](#)
- [Modify Complaint](#)
- [Delete Complaint](#)
- [Register Action](#)
- [Customer's Complaints](#)
- [Query Complaints](#)
- [Reports](#)

-

Manage complaints:

Click **Customer Management** Menu, Point the **Complaints** item on the menu and click the **Manage Complaints** item.

This form will help you to manage all the complaints that have not been solved.

You can either specify the range of dates the complaints were created or give the number of days.

When this is done, select the **Type of Complaint** and click **Ok**.

All the complaints within the criteria chosen will be displayed in the **Unresolved Complaints** Section.

[TOP](#)

Register Complaints:

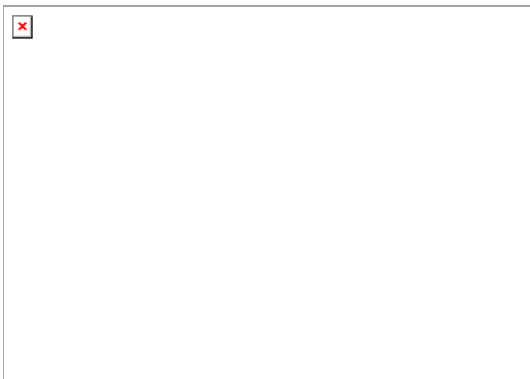

Select the date range in which the customer was disconnected.

Click the **Display** button to view all the disconnected customers' details.

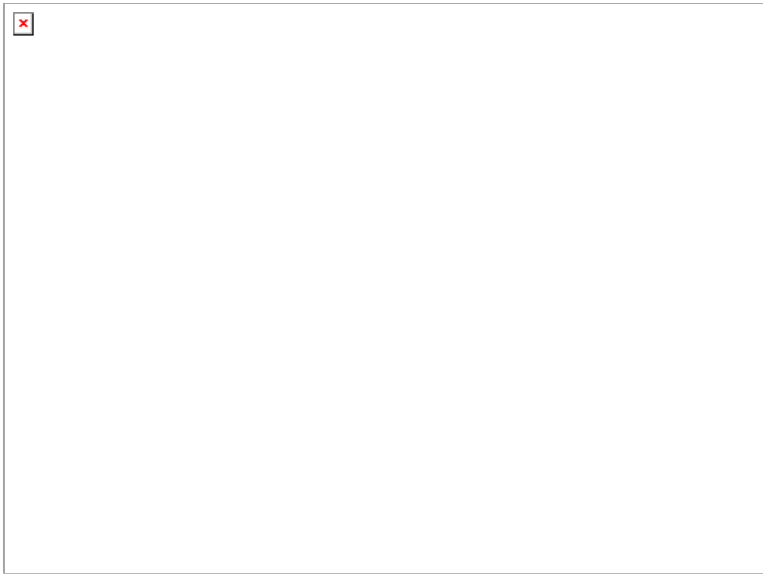

Click the **Reconnect** button to reconnect the customer.

By Checking on the Checkbox at the extreme left of the customer's account, a form will appear requiring you to fill in the necessary fields.

[TOP](#)

Modify Complaints:

Enter the **Reference Number** and click **Ok** button or click the search button and select the client who had made a complaint initially.

Select the **complaint category**.

Fill in the necessary information about the complaint (**Type of complaint, Priority, Department to take action and the description of the complaint**)

Click the Modify button.

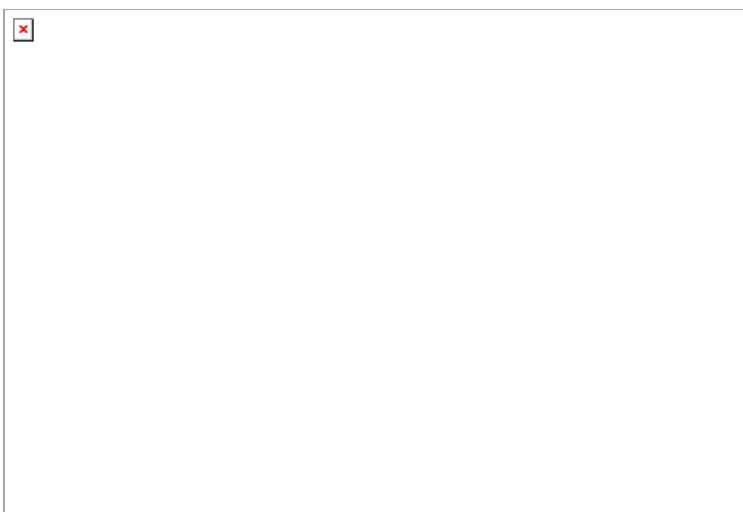

Click the **Delete last action** button to erase any initial complaints made.

Click the **close** button to exit the form.

[TOP](#)

-

Delete Complaints:

Click the **Load** button on the form to display the comments that had already been made on the **complaints that can be deleted** area.

Select the complaint reference number that you wish to delete.

Click the **Delete** Button on the form

Click **close** to exit the form.

[TOP](#)

Register Action:

Enter the **Reference number** of the complain and click the **OK** button or use the **search** button to obtain the complaint required.

The customer profile will be filled when a reference number is set.

Fill in the necessary action that will be taken or has been taken to solve the complaint brought forward by the customer. Select the employee to handle it and type the description of the action taken.

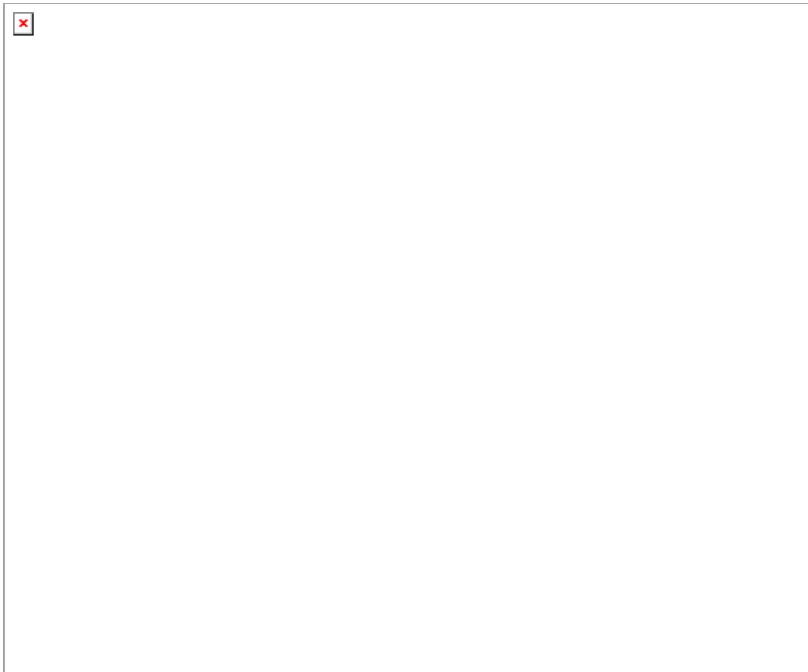

Check the option "**Complaint Resolved**" if the complaint was resolved. Click the Register Button to forward the complain to the specified employee.

Click the **close** button to exit the form or abort the process.

[TOP](#)

-

Customer's Complaints:

To view all the complaints a customer has ever recorded:

Enter the **account number** and click **ok** or click the **search** button and select the required customer

The **customer profile** will be shown and the **complaints history** will be displayed too.

Click **close** to exit the form.

[TOP](#)

-

Query Complaint:

To search for a complaint in the database of the system:

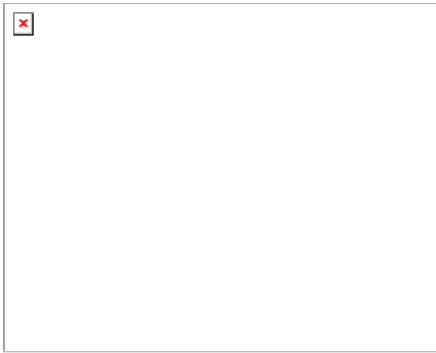

Click the search button and obtain the reference number of the complain using the various criteria to search.

Click the ok button to view the complaint.

[TOP](#)

Reports

No. of Complaints:

To view the number of complaints:

Select the date that the complaints were forwarded to the company (The range of dates)

Select the billing group that the complaints emanated from.

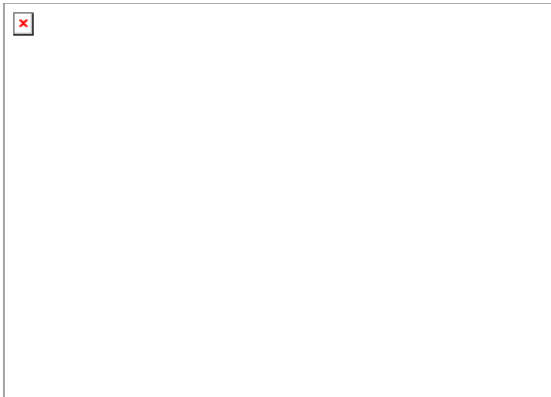

Select the type of complaints and the complaints category.

To view the number of complaints received in a day-to-day basis, click the **Daily** button.

To view the number of complaints received monthly, click the **Monthly** Button.

Click **Close** Button to exit the form.

Un-resolved Complaints:

To view unresolved complaints:

Select the **range of days** that the complaint was/were received.

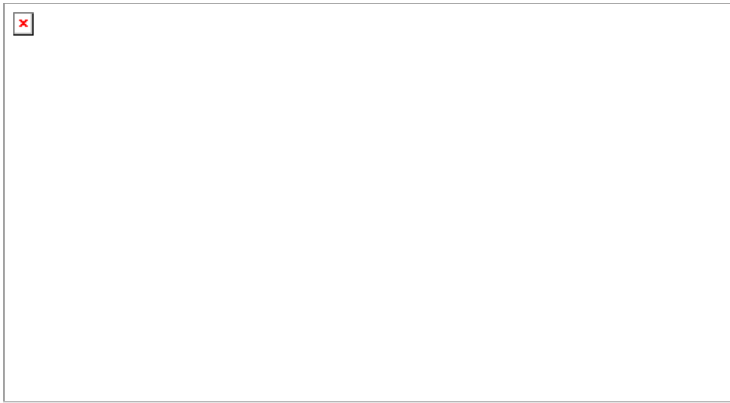

Select the **Department assigned** to deal with the complaint, the **position** that was assigned, **type of complaint** and the **complaint category**.

Click the **Print** button to preview the report before printing.

Click **print by zone** button to view the report arranged in a "by zone" criteria

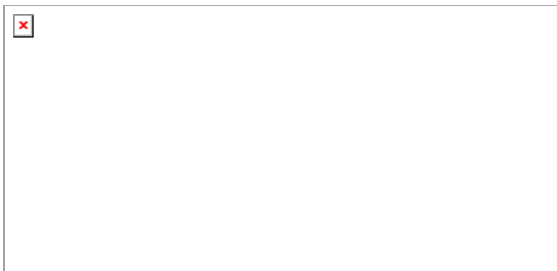

Click the **cancel** button to exit the form.

All Complaints:

This gives a report on all the complaints made under specified criteria.

Contract Detailed Information:

This report presents the user with information about a customer and his/her contract with the company.

Select the **customer account** number

Select the **start date** and the **end date** that the report will cover.

Select the **report output**

Click the **Print** button to preview the contents of the report before printing.

Click the **Close** button to exit the form.
